# Life-Changing Nutritional Products for Health-Minded & Entrepreneurs

Happy 2017, everyone! Welcome to the **very first catalog edition of the AIM Living Well magazine**. We encourage you to use this issue as a resource throughout the year, and to purchase additional copies to share with others!

In 1982, we had a free-enterprise vision of helping people achieve health and wealth through **life-changing nutritional products and entrepreneurial spirit**. That same vision and AIM's mission "to improve the quality and productivity of people's lives" is as strong today as it was back then. Along the way, we have introduced you to those responsible for The AIM Companies' positive image, each with a story about the impact AIM has had on their lives. This legacy of testimonials has laid the foundation of what we are and what we will always endeavor to be.

Many multi-level companies have come and gone since AIM's founding. And a valuable lesson was learned on the journey: we can only control how green our grass is and not that of the competitors. What The AIM Companies does not provide in flashy advertisements

and get-rich-quick schemes, it makes up for with our **non-compromising integrity and longevity**. Perhaps being the older kid on the block has some advantages because we already know what others are trying to learn.

Today, AIM consists of people from all around the world with a desire to improve their lives and the lives of others. As we embark towards an important milestone, we RECOGNIZE that everyone is unique, with their own set of values, beliefs and ideas. **We RESPECT that everyone deserves to be treated as an individual.** And last, but not least, it is our goal to RESPOND to your needs, wants and ideas. We aim to exceed your expectations in all we do.

Our vision remains the same. Our hope is to make this a journey with you, not merely a destination. Because after thirty-five years in "Partnership for Life," if there is one thing we have learned — the journey matters.

*~The AIM Companies*

**The Healthy Cell Concept** is an overview of the five steps needed to improve your health through nutrition. By following these simple guidelines, one should see robust, beneficial results. It's never too early or too late to get started.

## 1 food

Our cells need pure, whole, natural, fresh foods as well as high-quality nutritional supplements.

## 2 exercise

Exercise provides strength, endurance, flexibility and mental alertness as well as assisting in stress relief.

## 3 environment

A clean environment, beginning with the water we drink and the air we breathe, has a large impact on the body's cells.

## 4 protection

A healthy immune system is the best defense against disease and illness, which means we need proper nourishment, rest and stress management.

## 5 attitude

A positive attitude yields positive results. Laugh, be happy and it can help stave off illness and disease.

## topical magnesium

Topical support for bone and joint problems, cardiovascular issues, headaches and muscle stiffness

**Mag-nificence** lotion and spray deliver topical magnesium that is absorbed through the skin. The benefits of magnesium include increased energy, muscle ache and spasm relief and heart health support.

# 3 steps to living well

## Fundamental lifestyle choices for a healthy body

**Eliminate.** Don't make lifestyle choices that result in poor health. Exercise regularly, get enough quality sleep and eliminate toxic stress in your life. Of course, don't smoke, drink to excess or abuse drugs. Regularly cleansing the body of toxins (detoxification) is vital. Toxins can be flushed from the body with the right foods and AIM products.

**Nourish.** Eat a balanced and sensible diet built around whole foods. Avoid overeating and large portions. Drink eight glasses of pure water daily, and use AIM wholefood concentrates and supplements to help nourish your cells, enabling them to operate at peak efficiency.

**Replenish.** Our bodies often require nutritional supplementation. As you can see in this catalog, The AIM Companies™ offers a variety of products to assist with your health and nutrition.

## Nutrition that Works!
